

NEW SENSOR  
GENERATION

# EMG

an eLEXIS company

perfecting your  
performance

## New optical strip edge measuring systems EMG EVK3 & EVM3

- » Improved handling during commissioning
- » Simplified setting via web browser and digital potentiometers
- » 4 x faster slide LS13/14
- » Wear-free encoder, better linearity
- » Long availability of the new generation
- » New type code
- » Compatibility with predecessor EVK2/ EVM2
- » Measuring accuracy: +/-1 mm
- » Places of application:
  - › High-precision applications (e.g. reel, strip centring)
  - › Decoiler or trimming shear
  - › Confined installation locations
